LUBRICAJO B

Autonomous, reusable lubrication system

GRUETZNER
AUTOMATIC LUBRICATION

Advantages

Autarkic operation
battery-operated

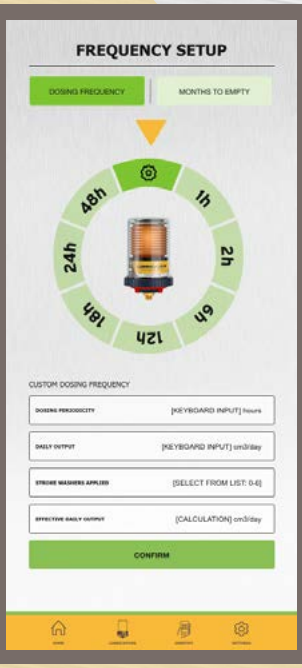
Multi-point lubrication
connection of distributors possible

Outdoor use
dust tight and water protected

Status reports
optical function and fault indication by LEDs

Further advantages

- flexible deployment periods: 1 week to 16 months
- powerful pump up to 25 bar (363 psi)
- concealed controls – protected against incorrect operation



Control via Bluetooth

Easily adjust settings and monitor your lubricators via the app on your smartphone.

Areas of application

With its IP66 protection class, the Lubricajo B resists the penetration of dust and moisture and guarantees reliable lubrication even in demanding environments.
