SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

General notes

Avoid contact with skin, eyes and clothes. Remove victim out of the danger area. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. Never give anything by mouth to an unconscious person or a person with cramps. If unconscious but breathing normally, place in recovery position and seek medical advice. Keep affected person warm, still and covered. Do not leave affected person unattended. In the event of cardiac arrest immediately perform cardiopulmonary resuscitation.

Following inhalation

In case of accident by inhalation: remove casualty to fresh air and keep at rest. If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. In all cases of doubt, or when symptoms persist, seek medical advice.

Following skin contact

After contact with skin, wash immediately with plenty of water and soap. Take off contaminated clothing. If skin irritation occurs: Get medical advice/attention.

Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. After contact with the eyes, rinse with water with the eyelids open for a sufficient length of time, then consult an ophthalmologist immediately. Protect uninjured eye.

Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting. Observe aspiration hazard if vomiting occurs. Call a doctor if you feel unwell.
