4. First aid measures:

Skin contact: Wash with water and soap. Remove contaminated clothing.
If grease has penetrated skin by force (in case of misuse of a grease press): See a physician* immediately.

Eye contact: Flush with plenty of water for at least 15 minutes. See a physician* if the eye irritation remains.

Ingestion: See a physician* if necessary. Do not induce vomiting.

Inhalation: Remove the patient to fresh air. See a physician* if necessary.

*Show the physician this safety data sheet.

5. Fire fighting measures:

Suitable extinguishing media: dry chemicals, powder, foams, carbon dioxide
Do not use water.
In the case of fire, the vapour can involve toxic compounds (carbon monoxide).
Use a respirator to protect from vapours.

6. Accidental release measures:

Pick up free grease for recycle or disposal. Absorb small amounts on inert material.
Collect the released product and the used absorbent materials in suitable containers for disposal (see sect. 13).
Avoid the uncontrolled discharge in sewage systems, in surface and underground waters.
Do not smoke while handling with released grease.

If the grease is exposed to high temperatures, good ventilation in the working areas is necessary. Avoid the contact of sparks and flames. Do not eat, drink and smoke in working areas.

8. Exposure control / Personal protection:

Hand protection: Not necessary in normal use. When often handling the product wear gloves (i.e. made from Latex, permanent using time >30 min.; made from butyl rubber, permanent using time >8 hours and other materials).

Respiratory protection: Not necessary in normal use. Avoid breathing the vapours above the decomposition temperature (oil mist).

Eye protection: Not necessary in normal use. Wear safety glasses, if necessary.

Keep away from foodstuffs. Wash your hands before making a break and when you finish the work. Separate your working clothes from other clothes. Change dirty clothes. Observe also the ordinary precaution instructions, which describe the sure handling with chemicals.
